

Overseas Conference Grant (Legacy Fund) Established in 2016

Criteria for applications

Introduction

The College of Radiographers (CoR) Overseas Conference Grant (Legacy Fund) has been established following receipt of a generous donation and will be used to support two areas of work.

Part 1: Overseas Conference Grant

A grant will be made annually and will support a qualified member of the Society of Radiographers, United Kingdom, or a small team of members, to travel overseas to present the findings of their research and/or service evaluation as an oral paper at an international conference.

Successful applicants will agree to prepare an article for publication in *Synergy News* or *Imaging and Therapy Practice* on their experience; and are encouraged to publish the findings of their work in *Radiography*.

Applications for funding to the value of £1000 will be considered although, for exceptional applications, more may be available.

There will be two grant calls per year – one in April and one in October – with one successful grant allocation in each round. Closing dates will be the last Friday of April, and the first Monday of October each year.

Criteria for applications

Radiographers wishing to be considered for this grant must:

- Have been in continuous membership with the Society of Radiographers for a minimum of two years at the date of application for the grant;
- Hold current registration with the Health and Care Professions Council (HCPC);
- Be prepared to act as an ambassador for the Society and College of Radiographers during the conference visit and at all times in relation to the receipt and use of the grant;
- Successful individuals will be required to sign and adhere to the terms of reference for representing the Society and College of Radiographers.

NB Unfortunately, we are unable to fund applicants who have previously received overseas conference grant funding.

Applications

Those wishing to apply for the grant are required to complete the accompanying application form and submit this alongside a short CV (for each applicant if applying as a team) and a manager's letter of support by the deadline in April or October.

The application must include detailed anticipated costs, covering travel, accommodation, subsistence, and other anticipated expenditure.

NB Funding will not be released until notification has been received from the conference organisation committee confirming that the abstract has been accepted for presentation.

Part 2: Eponymous Lecture

The Legacy Fund will also support an invited speaker to deliver one of the College of Radiographers eponymous lectures.

A recommendation will be made by the College Board of Trustees (CBoT) in relation to an overseas speaker.

The grant for this invited speaker will cover travel and accommodation costs at the discretion of CBoT.
